

Make an MCC kit bag for an AIDS caregiver kit

Fabric: 43 cm x 122 cm (17" x 48") for the bag
5 cm x 10 cm (2" x 4") for the loops (x2)

Cord: 213 cm (7 ft) for the drawstrings (x2)

- 1** Fold edge of bag fabric in on all sides 1.5 cm (1/2") and stitch a narrow hem.

- 2** Fold down 4 cm (1 1/2") on the two short sides and stitch close to the fold and the edge to make a casing (for drawstrings).

- 3** To make loop: Fold both long edges of loop fabric into the center. Fold in half lengthwise and stitch.

- 4** Fold bag in half, wrong side in. Insert loops on each side at bottom fold. Stitch bag sides from casing seam to bottom fold.

- 5** Pass a cord through the casing and loop, starting and ending on the same side. Repeat on the other side. Tie off cords.
